ALL WORK AND NO PLAY IS NO WAY TO GO!

Commercial Fisheries News presents the Maine Lobster Boat Races 2004 Summer Guide

There is nothing more uniquely Maine than a day at the lobster boat races. Whether you're drawn to the races as a serious competitor, or are a summer visitor in search of a true Maine experience, this edition of the Maine Lobster Boat Races 2004 Summer Guide will help you plan your race days or days.

This year, seven locations have signed-on to present a race card of uniform sanctioned classes, allowing racers to earn and accumulate points throughout the season all along the circuit. The seven sanctioned events include: Boothbay Harbor; Moosabec; Stonington; Harpswell; Friendship; Winter Harbor; and Searsport. In addition to these sanctioned events, an annual non-points race at Pemaquid has firmly established its popularity with racers looking for a fun outing and top-shelf prizes.

This guide provides essential facts, schedules, and contact information for planning your day at the races. It has been compiled by the staff of *Commercial Fisheries News*, the fisherman's hometown newspaper for more than 30 years.

While we've made every attempt to ensure accuracy, bear in mind these are local, volunteer-organized events and schedules are frequently adjusted right up to race day. We strongly recommend you use the race and activities contact information we have provided for each location to obtain more detailed schedules and specifics.

Most importantly, get out and see a Maine lobster boat race this summer. It's an experience you just can't duplicate anywhere else!
