

MOOSABEC (Jonesport-Beals)

RACES: Friday, July 4

DIRECTIONS:

From points west: Route 1 north past the Four Corners in Columbia Falls to Route 187 which leads to the Jonesport-Beals bridge over Moosabec Reach.

From points east: Route 1 south past Jonesboro to Route 187 which leads to the Jonesport-Beals bridge over Moosabec Reach.

ABOUT THE RACES:

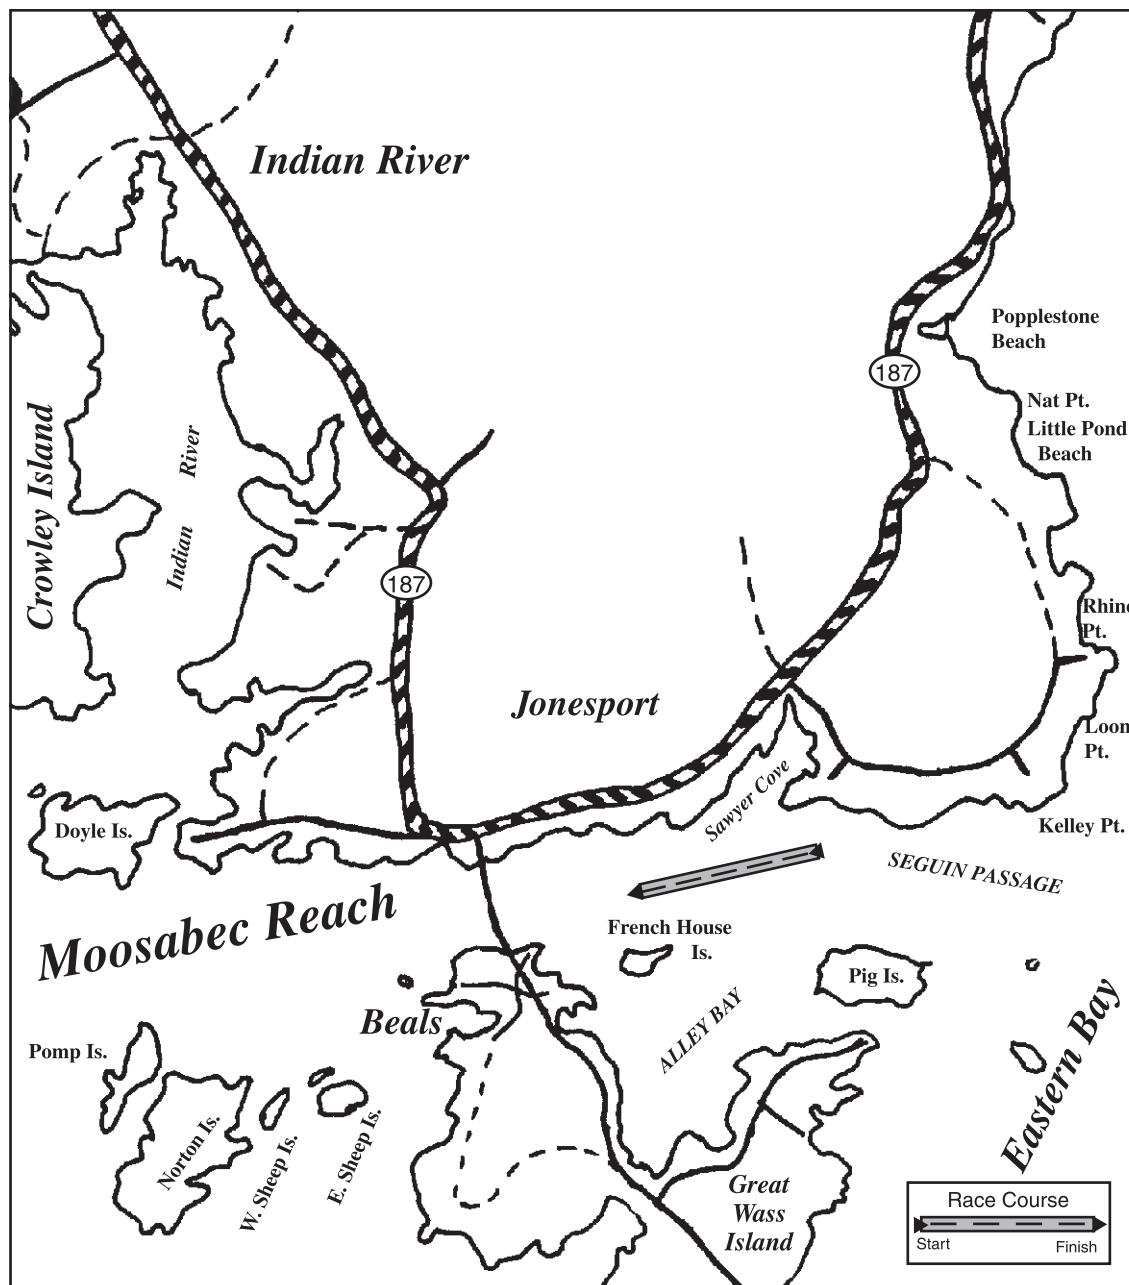

According to the oldtimers, this is the cradle of Maine lobster boat racing, back where it all began many decades ago. With few exceptions they have been racing lobster boats here on Moosabec Reach on the Fourth of July for just about as long as anyone can recall.

Popular with the hometown crowd, including many boats that will make this their only race of the summer, Moosabec is also a popular spot for "campaigners" working to earn points on the summerlong MLBRA race circuit.

Look for popular local boats, including lightweight Lorna R clone, Foolish Pleasure (gas Class D), and Underdog (gas Class C) to win their respective races, then square off for the uniquely Moosabec last race of the day to lay claim to the title of "world's fastest lobster boat."

WHERE TO WATCH FROM:

If you don't have a boat, this race is most

Your hometown dealer providing sales and service for
