

# FRIENDSHIP RACES: Saturday, July 26

**DIRECTIONS:**

From points south: Route 1 north to Waldoboro, then turn onto Route 220 and head south until you reach Friendship.

From points north: Route 1 south through Thomaston to South Warren. Take Route 97 south until you reach Friendship.

**ABOUT THE RACES:**

Fitting the name, Friendship is one of the friendliest races on the circuit. Local racers join in with points chasers for a day of fun afloat and nobody seems to get overly excited about the order of finish.

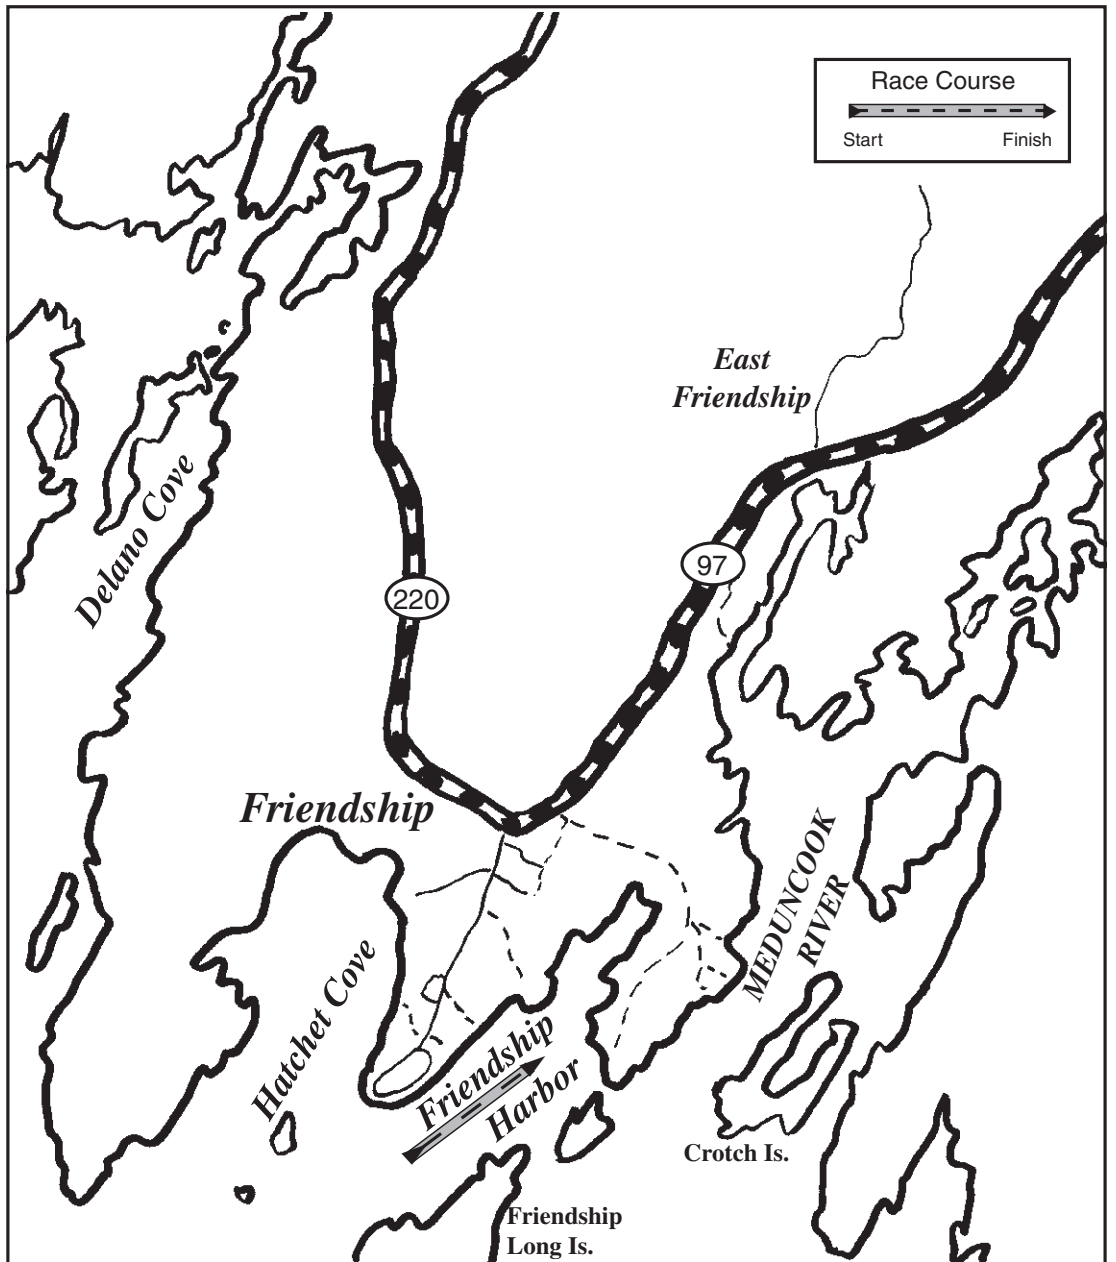

Wes Lash of the venerable Lash Brothers Boatyard stepped up to the helm of the local race committee here last year and earned high marks for his debut. Back again this year, Lash will continue to build on the success Friendship has established as a "must-do" event on the MLBRA circuit.

If past-practice holds firm, there'll be a raffle for an outboard motor with all proceeds going to benefit the local volunteer ambulance corps.

Plus, this is yet another weekend of back-to-back racing, with several competitors likely to steam on down to Harpswell for races the following day.

**WHERE TO WATCH FROM:**

Any open vantage point overlooking Friendship Harbor will offer a clear view of racing; the course runs roughly parallel to the shore.

# ACCUTECH

MARINE PROPELLER, INC

A Prop Scan® / MRI Facility

**Our Sales & Repair facilities offer the following services:**

**Propeller Correction & Sizing**  
 With the aid of Prop Scan / Hale MRI, we are able to correct most propellers to ISO tolerances producing improved performance

**Balancing**  
 Once a propeller has been tuned, we balance all propellers to ensure that there will not be any rotational vibration

**Finishing**  
 Every propeller is professionally finished to ensure accuracy and to provide a pleasing appearance

AccuTech Marine Propeller, Inc. is the only computer based propeller shop in New England that utilizes both Prop Scan® and Hale MRI scanning technology.
